

WORKHOLDING ADHESIVE®

BlueGrip™ Adhesive - Hold on Tight!

With BlueGrip™ workholding adhesive®, nothing is too hard to hold!

BlueGrip workholding adhesive® is designed specifically and exclusively for the Blue Photon workholding system.

The gel-like adhesive fills the gap between the surface of the gripper and the workpiece surface for outstanding holding power.

BLUEGRIP™ WORKHOLDING ADHESIVE®

- Works on ferrous and non-ferrous metals, ceramics, composite materials and some plastics.
- Cures in 60 to 90 seconds.
- Impervious to cutting fluids and oils.
- Cured adhesive is removable with a CNC machine mounted cleaning tool, hot water, steam, hot water spray or dry ice blasting.
- Fills gaps of .020" to .120" between the gripper and the workpiece.
- Available with fluorescent dye for easy identification of residual adhesive.

Part Number	Size	Style	Description
43200	30cc syringe	BlueGrip™ S2 Regular	Use for manual and pneumatic dispensing
43210		BlueGrip™ S2 Fluorescent	
46200	1 liter cartridge	BlueGrip™ S2 Regular	Use for automated dispensing
46210		BlueGrip™ S2 Fluorescent
